Introduction

To us, our business is about making the global coffee industry the best it can be for all our stakeholders, adding meaningful value at every stage through data and shared experiences.

Brand Positioning

To seek the best coffee for the benefit of all.

At World Espresso Championships we believe that coffee is much more than just a drink - it's a force for good in the world and in the lives of everyone it touches.

Every bean has a story, and every cup has the potential to create real impact.

We believe our purpose and role in society is to bring together farmers, roasters, baristas and coffee lovers, to seek out and develop the best coffee, whatever it takes, while ensuring every person in the value chain is recognised and rewarded and given access to the right opportunities in life.

Through shared experiences and data-driven insights we bridge the gap between bean and cup, raising industry standards and enriching lives. Because the best coffee is about more than just taste - it's about the people behind it, fairness and sustainable quality.

Like a person, World Espresso Championships must communicate consistently with its stakeholders across multiple mediums to build an emotional and enduring connection. We take huge pride in what we have achieved.

Tone of Voice

World Espresso Championships speaks with Confidence and Purpose

Our tone of voice reflects our fundamental purpose - to seek out the very best coffee for the benefit and advantage of all.

We are passionate about connecting to all our stakeholders, from the farmers to the traders, the roasters to the baristas, and ultimately to every coffee drinker. Our tone of voice helps us speak directly to them all - honestly clearly and with real purpose.

We are:

Clear

No jargon, no clutter, no clever words. Just straightforward, honest language.

Assured

We know our coffee, and we share that knowledge with confidence in its impact.

Intelligent

It takes a lot to make a real difference so we offer important, thoughtful, insights with feeling.

Warm

We are open and approachable. Always professional and totally committed.

Brandmark

The World Espresso Championships brandmark allows us to balance our global ambitions with local events and highlight our presence as a source of important data for all our stakeholders.

The stylised coffee cup, and the supporting curve of our typography, provides an immediate link to our business with the integrated curved line reflecting the scope for creativity in developing the perfect espresso.

Its overall simplicity ensures we stand out from others in our field.

The Brandmark and Logomark are available via:

- Final Artwork in Adobe Illustrator
- High Resolution Ready-to-Use Visuals in PNG
- High Resolution Ready-to-Use Visuals in JPEG
- High Resolution Visuals in PDF for Reference

Variations

Brandmark

Logomark

Clearspace & Minimum Size

The clearspace indicates the minimum space that should be maintained around the Brandmark and the Logomark to ensure its clarity. This area should never contain any design or graphical elements.

The Brandmark and Logomark files have been prepared with the clearspace included for ease of application.

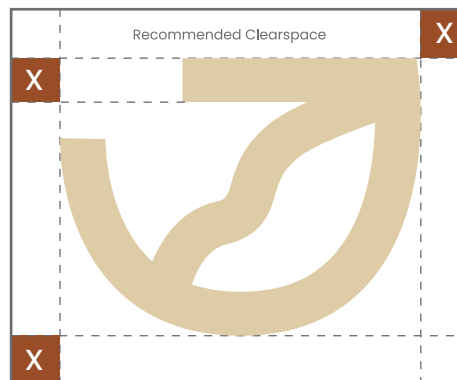

Brandmark Clearspace

Brandmark Minimum Size

Logomark Clearspace

Logomark Minimum Size

Prohibited Usage

The following scenarios highlight a variety of restricted usages of the Brandmark. These situations represent a limited number of use-cases, and best judgement should be applied to applications outside of those described here.

Do not convert the Brandmark into outlines

Do not stretch or skew the Brandmark

Do not apply effects to the Brandmark

Do not adjust the spacing of the letters in the Brandmark

Do not use the Brandmark as a clipping mask

Do not alter the Brandmark

Sufficient contrast must be maintained between the Brandmark and the background in order to maintain our identity's legibility.

The full colour Brandmark should be used wherever possible. Our white version can be used in situations where the full colour Brandmark is illegible, whereas the black version should be used where the full colour version is not possible (eg. B&W print).

Colour Usage

Original on white/light background

Sand and white on WEC cinnamon background

Cinnamon on WEC sand background

White on photo with cinnamon colour tint background

White on black background

Black on light background

Prohibited Colour Usage

The following scenarios highlight a variety of restricted colour usages of the Brandmark. These situations represent a limited number of use-cases, and best judgement should be applied to applications outside of those described here.

Do not apply gradient effects on the Brandmark

Do not mix black and sand on the Brandmark

Do not mix black and cinnamon on the Brandmark

Do not implement different colours

Do not use black colour on busy background

Do not use white colour without cinnamon tint

Identity

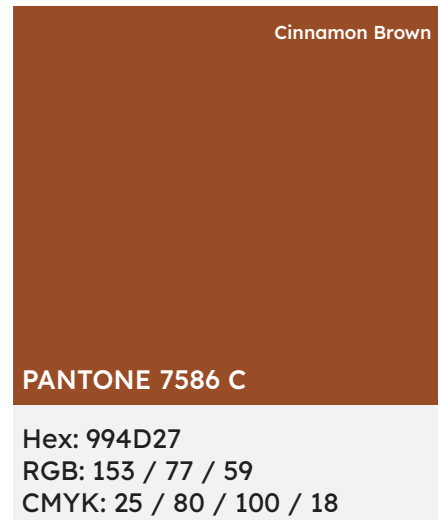

Brand Guidelines

Our colour palette centres around the dominant and distinctive **Cinnamon Brown** and **Light Sand**, inspired by, and reflective of, the coffee we so love.

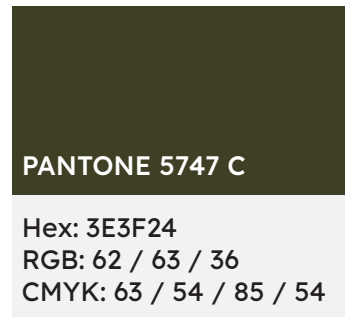

The balance between the colours allows for subtle yet distinctive application variances and expands the depth of our identity.

Colours

Primary

Secondary

Our colour palette centres around the dominant and distinctive Cinnamon Brown and Light Sand respectively.

Secondary colours add flexibility without compromising the brand's visual harmony.

The balance between the colours allows for subtle yet distinctive application variances and shows our clarity and directness of thought

Architecture

National

Local

The colours used can be customised to the different geographical locations and competitions using the secondary colours from the colour palette. However no more than two colours should be used in any one variation to maintain the integrity of the identity.

Lexend is our main typeface, selected for its modern aesthetic, clear legibility, and readability. Its versatility in weights and styles allows for a dynamic typographic hierarchy, ensuring consistency and brand cohesion.

In software applications where Lexend is not available, Proxima Nova provides a complementary and versatile option that aligns seamlessly with our brand.

Note: As Lexend is a free font, it can be downloaded directly. Proxima Nova is a default font under the Microsoft ecosystem and comes pre-installed in both PC and MacOS.

Imagery

Our photography reflects the personal and highly creative nature of our commitment to the very best coffee.

We favour high-contrast images with a strong sense of light and shadow - visuals that feel intentional, considered, and calm.

Every shot should evoke the flavour and aroma of our coffee world.

Our imagery highlights our personal touch, our modern approach and the scene we cultivate in making our coffee. People are shown as integral to the design - friendly, confident and connected to their space. Their presence gives an emotional connection to our environment.

We avoid clutter, flat lighting or generic lifestyle scenes. Instead, we seek out images that feel cinematic and sharp, with purposeful use of light and composition.

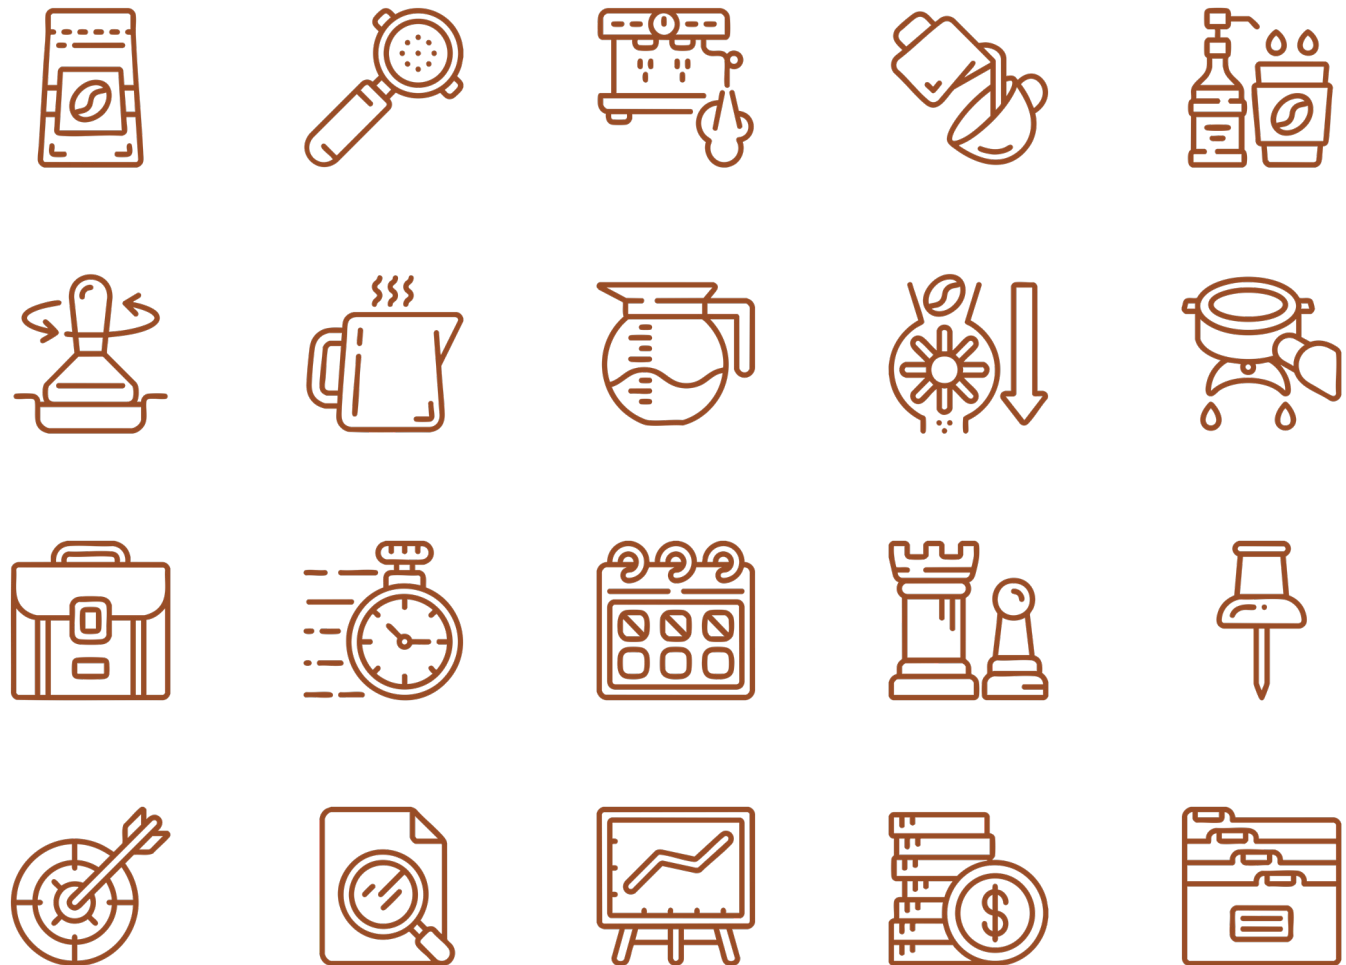

Iconography

Our icons are a visual representation of our brand identity, embodying a distinctive coffee feeling and environment.

The primary colour Cinnamon Brown imbues our icons with a true sense of our objectives and priorities.

The icons shown here are not exhaustive, allowing expansion and the incorporation of new additions, while aligning with our visual style.

Graphical Elements

Our graphical elements take inspiration from the original Brandmark, emphasising the smoothly curved elements that signify our search for the perfect coffee.
